

outright privatization without using the A-76 rules.

Finally, I am going to introduce into the defense authorization bill for fiscal year 2001 an amendment to extend COLA benefits for those civil service employees who exercised the right of first refusal on Guam. This will, I believe, assist these families financially and perhaps stem the flight of skilled workers from Guam.

Another aspect of this amendment is to provide a mortgage assistance program for all affected civil service workers. For all their years of dedicated Federal civil service, this is the least that the government can do.

Mr. Speaker, I have said it before and I will say it again, outsourcing from a small island economy does not make any sense. There is no readiness benefit to do it. In fact, there is more likely the case that this privatization endeavor will jeopardize both long-term and short-term readiness.

Of course there is no benefit to the local economy. Since Guam's firms are not large enough to be the prime contractor, most of the contract's profits will be sent off island or remain in the hands of big corporations.

There is no benefit to the laborer. Their salaries have been sliced and diced, so they will not even be able to afford the costly consumables that are sold locally. Whatever happened to an honest day's wage for honest skilled labor.

All in all, the Navy's conduct in this commercial study appears to have been a rather shallow display of gratitude and neighborliness for all of Guam's years of service as the Nation's most strategic forward located area. Furthermore, their decisions represent an utter lack of forethought with regard to the future defense needs in the region.

It is my hope to bring some relief to these dedicated civil service employees and alert other communities to the pitfalls that were encountered by my island community of Guam during the Navy's outsourcing.
